Stillwater tiles are completely hand-made, using original molds of actual plants and shells. Custom tiles are made to order; may be cut to size to match field tiles, and are created to specification. Background color samples are available. Finishes are matte, shiny gloss or satin. Custom design work, billed by the hour, includes creating molds from actual plants or shells for murals, plaques and deco tiles.

The characteristic beauty of a handmade porcelain tile is in its subtle variations of shades of color, texture and size. Tiles produced for individual orders may vary slightly from samples. Custom orders made to specification are nonrefundable.
